

Early Learning Scholarships Use in Minnesota: Mid State Fiscal Year 2017

Early learning scholarships support access to quality early education and care programs for Minnesota's low-income children by bridging funding gaps and decreasing barriers. Early learning scholarships are administered by the Minnesota Department of Education (MDE) and must be used in programs that are Parent Aware Rated. Parent Aware, administered by the Minnesota Department of Human Service (DHS), is Minnesota's Quality Rating and Improvement System. Based on research, Parent Aware Star Ratings help families identify programs using the practices that best prepare children for kindergarten. Families can access early learning scholarships in two ways. Pathway I scholarships are awarded directly to eligible children through Regional Administrators. Maximum scholarship amounts vary by star rating, with a maximum of \$7,500 for use in a Four Star Parent Aware rated program and a maximum of \$5,000 in a Three Star Parent Aware Rated Program. Pathway II Scholarships are awarded to children through an eligible Four-Star Parent Aware rated program.

The information contained in this report is a view of the use of early learning scholarships in Minnesota, mid-year state fiscal year 2017, July 1, 2016 to December 31, 2016. Because scholarship data is collected at a child level, to ensure compliance to Minnesota Government Data Practices Act (MGDPA) Minnesota Statutes, Chapter 13, due to filtering data, there is limitation to the level of detail at county or regional levels. Additionally, as the Minnesota Department of Education (MDE) moves from data being collected regionally by 13 contracted grantees towards the single data source: the Early Learning Scholarships Administrative (ELSA) system, not all reports that will be available are fully functional. The data source for all scholarship tables in this report is ELSA and includes data that was entered as of January 9, 2017. The wait list data for Pathway I scholarships comes from the 13 Regional Administrators.

Scholarships Statewide

Summary

This total is the unduplicated count of children who have received a new or renewed scholarship between July 1, 2016 and December 31, 2016. As a child may move Pathways, the Pathway I and Pathway II numbers may include children who have been awarded a single scholarship, but were awarded through one Pathway, award was cancelled, but child was picked up through the other Pathway. This policy change was implemented in fiscal year 2016 to provide more flexibility for scholarship use when children need to change programs or relocate in the state.

Year to Date FY2017 - 12-31-16	Total	Pathway I	Pathway II

This report is the unduplicated count of children at the statewide level, who have received a new or renewed scholarship between July 1, 2016 and December 31, 2016. Demographic data, other than age of child, is an optional field on the early learning scholarship application.

How Families Qualified:

Families have two options to demonstrate their income eligibility. Option 1 includes submitting documentation that their child is participating in one of the following eight public assistance or publicly funded programs. Families may be benefitting from multiple programs within these options but chart only indicates what program was used for purpose of determining scholarship eligibility. Families that do not document their eligibility through Option 1 may use Option 2 and submit evidence of their household income. To be eligible under this option, families

must have income equal to or less than 185 percent of the federal poverty guidelines in the current calendar year. Seventy-one percent (71 percent) of scholarships were verified for income using Option 1.

Where Scholarships Are Used

Program Detail

The following tables represent by program type and Parent Aware Star Rating where children awarded scholarships between July 1, 2016 and December 31, 2016 were enrolled. This is a duplicated count as children may change programs and Pathway types during their scholarship year.

Star Rating Of Program-Pathway I	Not Yet Selected	Four-Star Rating	Three-Star Rating
	647	2547	219

Note: Individual county, star rating or program type will have minor duplication due to children relocating or changing programs.

For the purpose of scholarships, MDE counts at a program level, and has grouped programs with the same authority within a school district attendance area. Site level counts are the physical location within programs where the child with a scholarship attends. Both program and site data may be duplicates as children may change programs and locations within a scholarship year.

Scholarship Data By Region and County

Note that the count of scholarship when run at a county, program, or Star Rating level will not add up to the state counts as a whole. While on a state level, the child will be counted only one time, if the child changes programs, scholarship pathway, or relocates, a narrowly defined report will include that child in both programs; therefore duplication will occur. Pathway I Scholarships are transportable and stay with the child when the child relocates. While Pathway II Scholarship funds remain at the program if a child leaves, the child may have the remaining months of their scholarship picked up in another Pathway II program or as a Pathway I scholarship if funds are available at the new program or in the region, and the child has not exhausted their scholarship maximum or reached the twelve month expiration mark. A note about data, when the N is greater than 0 but less than 10 is not reportable at a county or Pathway level. MDE follows a secondary

suppression rule and a minimum of two cells per row or column will be unreported and indicated as N to ensure compliance with data practice standards.
